

# Odorant Delivery

## Odorant Transfers

### Odorant delivery:

We deliver Chevron Phillips odorants from our storage facility in Philippi, West Virginia, using a 2,400 Gal bobtail truck equipped with a vapor recovery unit. Delivery of odorants also available in smaller 57 or 120 Gal odorant containers.

### Odorant transfers:

We transfer odorants within your company from larger storage tanks into smaller odorizers, using either a 2,400 Gal bobtail truck, or 57 and 120 Gal odorant containers carried in the trailer of a Ford 350 pick-up truck.

### Odorant filtration:

We will filter your odorant for reuse. (20  $\mu$ m filter cartridges)

### Refill of odorant cylinders:

We refill all sizes of odorant cylinders, including farm taps.

### Emergency response to odorant spills:

Our highly trained crews can handle all types of odorant spills, including remediation of contaminated soil, equipment and water. Our patented, highly efficient activated carbon filtration systems will suppress odorant air emissions during the remediation work.
